1. Applicant's paper filed in RCE on 4/2/2008 has been received and entered.
2. Applicant's remark corresponding to status of the claimed invention response to previous final rejection has been considered, but it is not persuasive for independent claim 9. Since the performance of a method for carrying out a non-destructive inspection as claimed by applicant in pre-ample of the claim is not complete to provide any feature corresponding to standardized data processing program has ability to establishing an inspection scheme correspondence with respective test instrument are used for inspection( already mentioned in the advisory action before).

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 9-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 9 fails to point out the subject matter of the claimed invention in method for carrying out non-destructive inspection in the result of the claim which is corresponding to the performing of a standardized data processing program to be used for inspection.
5. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are (after step of "selecting a manner of storing and archiving the results") : establishing an inspection scheme in predetermined

settings with respective test instruments thereof to be used for determining the non-destructive inspection.

6. All dependent claims also rejected based on the rejections of based claim.

***Allowable Subject Matter***

7. Claims 9-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
8. The following is a statement of reasons for the indication of allowable subject matter: Claims 1-8 are indicating allowable over the prior art of record because none of the prior art of record discloses the claimed combination as recited. (see the previous office action and applicant's remark response for reason).

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
